The diagram illustrates a header file dependency. At the top is a grey rectangular box containing the header file path 'src/libopentld/mftracker/BBPredict.h'. Below it are two white rectangular boxes. The left box contains 'src/libopentld/mftracker/BBPredict.cpp' and the right box contains 'src/libopentld/mftracker/FBTrack.cpp'. Two blue arrows point from the bottom of each of these two boxes up to the bottom edge of the header file box, indicating that both source files include the header.
